

Compatibility Matrix

Paragon® II Release 4.8.3 Compatibility Matrix

Please review the 4.8.3 Release Notes for important release information. Please consult the Quick Setup Guide and User Guide for product information on setup instructions, implementation, and operations. Additional Paragon documentation can be found under Product Documentation at www.raritan.com/support/.

Document Revision History

Original Document Release:	February 1 st , 2013
Revisions:	August 25, 2011 (3EK change to 3EN, add FHD/HD DDC adapters and SWUSB front end support) October 31, 2011 (3EJ changed to 3EK) January 19, 2012 (Added 0A7 to P2CIM-AUSBDUAL) February 2, 2012 (Reinstated UKVMC) October 15, 2012 (New high resolution DDC adapters support)

Note: Release 4.7 was the last release that supported the installation of Paragon II firmware on Paragon I UMT switches and UST user stations. While release 4.8 can successfully be installed on Paragon I devices (hardware generation 3 only), technical support for Paragon I equipment (unless listed below) is not available.
